GM 8.25" Front Differential Gear Ratio Identification Method

To ensure ordering/installing the correct 8.25" Front Differential gear ratio please refer to the following:

1. Locate the "Service Parts Identification" sticker located in the vehicle's glove box (See Illustration 1). This sticker lists all the Regular Production Option (RPO) codes for the vehicle.
2. The gear ratio RPO code will be shown on the "Service Parts Identification" sticker (See Illustration 2).
3. Identify your code as one of the following:
 GT4-3.73
 GT5-4.10
 GU6-3.42
4. Confirm vehicle: Year, Make, Model, Drive Type (AWD vs RWD)
5. Order, or confirm and install, the appropriate DRIVEN™ by ATP-Inc. part number for your specific vehicle.
