

Cabin Air Filter Installation Instructions

Interior ventilation filter is located above the passenger side instrument panel, below the glove box compartment.

1. Remove the (3) instrument panel retaining nuts from the instrument panel. Disconnect the glove box compartment light electrical harness and remove the instrument panel. (See Figure 1)

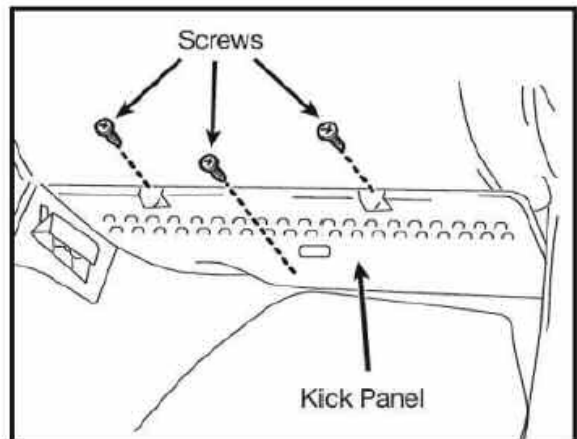

Figure 1

2. Remove (4) lower glove box compartment retaining screws and remove the complete compartment. (See Figure 2)

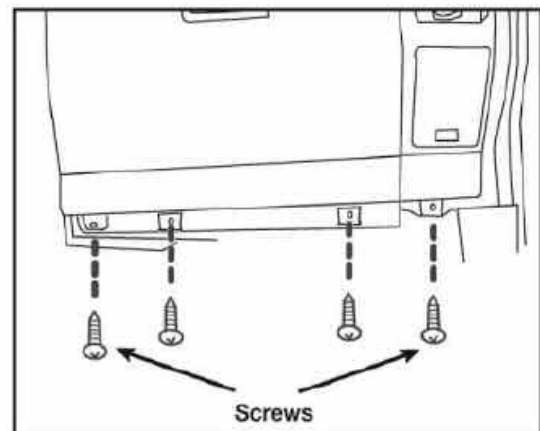

Figure 2

3. Remove (1) lower and (1) upper vent filter housing bracket screw and remove the housing bracket. Slide vent filter out of housing. (See Figure 3)

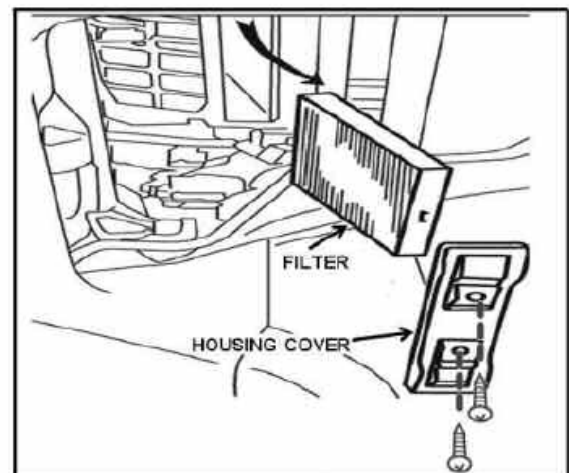

Figure 3

4. Installation is in the reverse order of removal.

Approximate install time: 15 minutes
