

## ATP Harmonic Balancers

March 2024

ATP is pleased to announce the expansion of Engine Harmonic Balancers in our Graywerks product line with 18 new part numbers. This expansion increases coverage by 25 million vehicles for popular Makes and Models that are growing in demand.

**18 Part Numbers**

**25 Million Vehicles**

### Product Category Overview

ATP Harmonic Balancers are a high-quality OE replacement alternative. The parts are developed to the OE design, ensuring they will install properly and function as intended. This design is manufactured with high grade metals and rubber that is bonded or pressed per the original specifications. Each component is precision machined and assemblies are dynamically balanced for the best performance.
